**ACME bags another 600 MW Solar Power Project at SECI 3 GW  
Interstate Transmission System (ISTS) Solar bid**

- *By winning this another 600 MW solar project, ACME portfolio will exceed 4.5 GWp Solar PV Portfolio across India with an operational capacity of 1.7 GWp and 2.8 GWp solar projects at different stages of development.*

**New Delhi, 13 July 2018:** ACME bags 600 MW Solar PV capacity in the reverse auction held on 13.07.2018 invited by SECI for 3000 MW solar power tender.

Solar Energy Corporation of India (SECI) invited solar tenders with cumulative capacity of 3000 MW ISTS connected solar PV tender to be executed at any location in India. Technical bids totaling 5,100 MW were received against the tendered capacity of 3 GW by 12 companies. ACME has bid for the capacity of 600 MW.

ACME won the bid in a highly competitive reverse auction held today at a tariff of INR 2.44 /unit. The second best tariff offered was 2.64 /unit for 300 MW.

*Being one of the most trusted solar power company in the country, we are excited to win this project and consistently offering most competitive tariff, this project will encourage us in our endeavour to bring green energy in the country **said Shri Manoj Kumar Upadhyay, Founder and Chairman ACME Group.***

ACME Solar is an independent power producer, which constructs, owns and operates solar power plants in India. With strong in-house execution and design team, ACME plans to execute this project in self-execution mode.

**About ACME**

[\(http://www.acme.in/\)](http://www.acme.in/)

Founded in 2003, ACME has been providing innovative, energy efficient, environment friendly products for Passive Telecom Infrastructure. Ventured into Solar Power Segment in 2008, ACME is now India's leading utility-scale solar power developer with a portfolio of over 4.5 GWp and target to reach 7500 MW by the year 2022.
